

Turbo Cool is a new concept in outdoor evaporative cooling

A cooling mist... with **NO** wetness!

Our TurboCool™ technology is unlike anything you have seen in the misting business.

Atlantic Constructors' goal in all of our designs is to provide the flexibility to target your cooling, whether it's 13 feet or 3 feet to the area to be cooled, with **complete evaporation and zero wetness**. So you can sit at a table 3-5 feet from the port and ensure complete cooling from a cool, comfortable breeze—with absolutely **NO WETNESS**. Guaranteed.

Be cool. Call ACI today!
